Commerce published the notice of initiation of this investigation on January 26, 2022.¹ On May 20, 2022, Commerce postponed the preliminary determination of this investigation until July 28, 2022.²

Scope of the Investigation

The products covered by this investigation are nails from Turkey. For a complete description of the scope of this investigation, *see* Appendix I.

Scope Comments

In accordance with the preamble to Commerce's regulations,⁴ the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁵ Certain interested parties commented on the scope of this investigation as it appeared in the *Initiation Notice*. On July 5, 2022, Commerce issued its preliminary determination regarding the scope of the investigation.⁶ For a summary of the product coverage comments and rebuttal responses submitted to the record for this investigation, and accompanying analysis of all comments timely received, *see* the Preliminary Scope Decision Memorandum. Based on an analysis of the comments received, Commerce preliminarily determined to make no changes to the scope

language from the *Initiation Notice*, as reflected in Appendix I.⁷ Commerce has established a separate briefing schedule for interested parties to address the preliminary scope determination.⁸

Methodology

Commerce is conducting this investigation in accordance with section 731 of the Act. Commerce has calculated export price in accordance with section 772(a) of the Act. Normal value (NV) is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying the preliminary determination, *see* the Preliminary Decision Memorandum.

All-Others Rate

Sections 733(d)(1)(ii) and 735(c)(5)(A) of the Act provide that in the preliminary determination Commerce shall determine an estimated all-others rate for all exporters and producers not individually examined. This rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding rates that are zero, *de minimis*, or determined entirely under section 776 of the Act.

In this investigation, Commerce calculated estimated weighted-average dumping margins for Aslanbas Civi Tel Ve Celik Hasir San A.S. (Aslanbas) and Sertel Vida Metal A.S. (Sertel Vida) that are not zero, *de minimis*, or based entirely on facts otherwise available. Commerce calculated the all-others rate using a weighted average of the estimated weighted-average dumping margins calculated for the individually examined respondents using the publicly ranged total value of each respondent's sales of the merchandise under consideration to the United States during the POI.⁹

⁷ Though Commerce preliminarily determined to make no changes to the language of the scope in response to interested parties' comments, we note that the scope language as listed in Appendix I omits an HTSUS subheading (*i.e.*, 7318.15.5060) originally included in the scope language from the *Initiation Notice*, because Commerce determined that this HTSUS subheading does not exist. *Id.* at 15.

⁸ *Id.* at 4-5.

⁹ With two respondents under examination, Commerce normally calculates (A) a weighted average of the estimated weighted-average dumping margins calculated for the examined respondents using the confidential total U.S. sales

Preliminary Determination

Commerce preliminarily determines that the following estimated weighted-average dumping margins exist:

Exporter or Producer	Estimated Weighted-Average Dumping Margin (percent)	Export Subsidy Offset (percent)	Cash Deposit Rate Adjusted for Subsidy Offset (percent)¹⁰
Aslanbas Civi Tel Ve Celik Hasir San A.S.	22.72	0.72	22.00
Sertel Vida Metal A.S.	38.38	0.78	37.60
All Others	35.77	0.77	35.00

Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise, as described in Appendix I, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the *Federal Register*.

Further, pursuant to section 733(d)(1)(B) of the Act and 19 CFR 351.205(d), Commerce will instruct CBP to require a cash deposit for estimated antidumping duties that is equal to the

value of the merchandise under consideration; (B) a simple average of the estimated weighted-average dumping margins calculated for the examined respondents; and (C) a weighted average of the estimated weighted-average dumping margins calculated for the examined respondents using each company's publicly-ranged total U.S. sale values for the merchandise under consideration. Commerce then compares (B) and (C) to (A) and selects the rate closest to (A) as the most appropriate rate for the estimated weighted-average dumping margin assigned to all other producers and exporters. *See Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews, Final Results of Changed-Circumstances Review, and Revocation of an Order in Part*, 75 FR 53661, 53662 (September 1, 2010), and accompanying Issues and Decision Memorandum at Comment 1. For a complete analysis of the data, *see* Memorandum, "Less-Than-Fair-Value Investigation of Certain Steel Nails from the Republic of Turkey: Calculation of the All-Others Rate for the Preliminary Determination," dated concurrently with this notice.

¹⁰ In the preliminary determination of the companion countervailing duty (CVD) proceeding, Commerce found that certain of the programs conferring a benefit to the two mandatory respondents, Aslanbas and Sertel Vida, were export contingent subsidies. In accordance with section 772(c)(1)(C) of the Act, we have preliminarily relied on the CVD rates of 0.72 and 0.78 percent (*i.e.*, the rates only related to export contingent subsidies) calculated for Aslanbas and Sertel Vida, respectively, as well as the CVD all others rate of 0.77 percent, for purposes of determining the preliminary AD cash deposit rate. *See* Memorandum, "Less-Than-Fair-Value Investigation of Certain Steel Nails from the Republic of Turkey: Placing Public Information Related to the Calculation of the "All Others Rate" from the Preliminary Determination of the Companion Countervailing Duty Investigation of Certain Steel Nails from the Republic of Turkey," dated July 25, 2022.

estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) the cash deposit rate for the companies listed above will be equal to the company-specific estimated weighted-average dumping margins determined in this preliminary determination; (2) if the exporter is not a respondent identified above, but the producer is, then the cash deposit rate will be equal to the company-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin.

Commerce normally adjusts cash deposits for estimated antidumping duties by the amount of export subsidies countervailed in a companion CVD proceeding. Accordingly, in a LTFV investigation where Commerce has made an affirmative determination for countervailable export subsidies, Commerce has offset the estimated weighted-average dumping margin by the appropriate countervailed export subsidy rate. The adjusted cash deposit rate may be found in the “Preliminary Determination” section above.

These suspension of liquidation instructions will remain in effect until further notice.

Disclosure

Commerce intends to disclose under Administrative Protective Order its calculations and related analysis to interested parties in this preliminary determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the *Federal Register* in accordance with 19 CFR 351.224(b).

Verification

As provided in section 782(i)(1) of the Act, Commerce intends to verify the information relied upon in making its final determination.

Certain steel nails include, but are not limited to, nails made from round wire and nails that are cut from flat-rolled steel or long-rolled flat steel bars. Certain steel nails may be of one piece construction or constructed of two or more pieces. Examples of nails constructed of two or more pieces include, but are not limited to, anchors comprised of an anchor body made of zinc or nylon and a steel pin or a steel nail; crimp drive anchors; split-drive anchors, and strike pin anchors. Also included in the scope are anchors of one piece construction.

Certain steel nails may be produced from any type of steel, and may have any type of surface finish, head type, shank, point type and shaft diameter.
